Aduh Saliha - Mawi

Mana rayuan ku
Hendak ku sampai kan
Rindu berahi ku pada
Kasih yang jauh

Jauh bukan jarak dan tempat
Jauh nama dan pangkat

Mana pengganti mu
Hendak ku dakapkan
Dendam asmara ku
Pada cinta yang luruh

Luruh bukan daun yang pudar
Luruh jiwa dan badan

Bertahun ku sandar percaya
Tak mungkin padam cahaya
Cinta mu bagai rembulan
Hilang di pandangan
Kala langit di lindung awan

Aduh mahkota terhempas
Baru lah ku sedar
Yang ku sangkakan intan
Oh hanya lah kaca

Sesudah berdarah barulah
Aku sedar jiwaku tercalar
Oh ... sakitnya
Bukan kepalang

Kau biarkan aku sendiri
Menderita siksa
Racun hidup ku

Saliha

Kau biarkan aku sendiri
Melewati sepi dalam hidup ku saliha

Kau biarkan aku sendiri
Meratapi nasib dalam gelita
Saliha

Oohh My Saliha

How should convey my love and passion to her
She whom is far from me
(far) its not of the distance
its in her name and superiority

How could I find someone like you
For me to shed and release my passionate love
(to shed) not like of falling leaves
(to release) that from my body and soul

I have trusted for years
My love will never fade
Your love like a moonlight
(light) invisible when covered by clouds

(she is like) my crown
Accidently drop and shattered
(she) whom I believe like a diamond
(she) actually a normal glass

My heart break into pieces
(like the glass) my soul scratched and marred
Not one word could describe the pain

You left me to suffer alone,
You left me wander in my loneliness
You left me in darkness mourning of my wretched fate
Ooh my Saliha
