I just wanna dance, dance

What the hell is going on? Music stops and beat goes on

So I stand in the crowd

Club is dancing anyway, guess my brain is not okay

'Cause I hear different sound

Music's going on and make me dance

Crowd is screaming "Oh" right in my head

Faces in the dark begin to pour on

Everything and I wonder, wonder, wonder

I just wanna da-da-da-da-da-dance

I just need to da-da-da-da-da-dance

I just wanna da-da-da-da-da-dance

I just need to da-da-da-da-da-dance

I just need to

Now I have no time to think, in my hand another drink

And I'm out of control

You still live inside my mind, but tonight I'll start to fight

With myself, I'm telling my love

Music's going on and make me dance

Crowd is screaming "Oh" right in my head

Faces in the dark begin to pour on

Everything that I wonder, wonder, wonder

I just wanna da-da-da-da-da-dance

I just need to da-da-da-da-da-dance

I just wanna da-da-da-da-da-dance

I just need to da-da-da-da-da-dance

I just need to dance

And you can bet on me, you can do it again

I'm out of love tonight, just once and forever

Music tells me out, I do all the things
That I wanna, wanna, wanna

Music's going on and make me dance
Crowd is screaming "Oh" right in my head
Faces in the dark begin to pour on
Everything that I wonder, wonder, wonder

Music's going on and make me dance
Crowd is screaming "Oh" right in my head
Faces in the dark begin to pour on
Everything that I wonder, wonder, wonder

I just wanna da-da-da-da-da-dance
I just need to da-da-da-da-da-dance
I just wanna da-da-da-da-da-dance
I just need to da-da-da-da-da-dance
I just need to
