All the people in the world
Every boy and every girl
Just imagine that we could
It isn't hard to do

All the people in the world
Every boy and every girl
Just imagine that we could
Face up brotherhood

All the people

All the people in the world
Every boy and every girl
Just imagine that we could
It isn't hard to do

Give it up
You just got to give it up
You just have to give it up
You just got to give it up

Give it up
You just got to give it up
You just have to give it up
You just got to give it up
You got to, got to, give it up

From the mountains to the sea
Through the valleys follow me
From down below to the way up high
Baby we can touch the sky

All the people in the world
Every boy and every girl
Just imagine that we could
Face up brotherhood

All the people in the world
All the people in the world
Just imagine that we could

All the people in the world
All the people in the world
Just imagine that we could

All the people in the world
Every boy and every girl
Just imagine that we could
Face up brotherhood
