"Always Here For You"

Visit "[Always Here For You](#)" on MotoLyrics.com

You make me breathe you make me smile you make
me cry but just for a while,
You give me the strength I need to go on and I can feel
all your support
Even oceans away, you are always by my side

And I am always here for you
Yes I am always here for you
Because I do love you
You are always by my side
And I am always here for you
Because I do love you

Because I'll always love you
You are always by my side and
I am always here for you
Because I do love you

And I always love you
You are always by my side
And I am always here for you
Because I do love you
