Watching, now I know what to do  
And waiting, I will blacken the view  
I'll burn the oil, someday you'll understand

I'm watching, watching your boats and planes  
And waiting, please don't try to explain  
I know what you've got buried in the sand

Ashes to ashes and dust to dust  
It all comes down to who you really trust  
Ashes to ashes and dust to dust  
Why can't you say, you've finally had enough?

Watching, we are not far away  
And waiting, we can be there today  
I think it's time you had a change of plan

I'm watching if you can't stop this yourself  
And waiting, we will give you some help  
Your story ends with no one left to tell

Ashes to ashes and dust to dust  
It all comes down to who you really trust  
Ashes to ashes and dust to dust  
Now what I do, I do for all of us

Ashes to ashes and dust to dust  
It all comes down to who you really trust  
Ashes to ashes and dust to dust  
Why can't you say, you've finally had enough?
