

## Saga "Goodbye"

It all comes down to one  
While staring at the sun  
It all comes down to one

One I'll remember  
The look in your eyes tonight  
And I will always remember  
The day that we finally said, goodbye

It all comes down to one  
Just one heart  
Full of pain and full of lies  
But now, now I know  
Love never dies

And I will always remember  
The tears in our eyes tonight  
And I will always remember  
The day that we looked at each other and said,  
goodbye
