It takes time to get to Avalon  
That's why we're on this marathon

The die was cast the day we passed  
The point of no return  
Once through the maze and past the haze  
The prize for which we yearn

This is more than a childhood passion  
This is more like a dream come true

It takes time to get to Avalon  
That's why we're on this marathon  
It takes time to get to Avalon  
That's why we're on this marathon

It's far too late, we took the bait  
We've heard the siren's call  
No time to loose or pick and choose  
We've got to have it all

This is more than a childhood passion  
Don't try and stop me, I'm comin' through

It takes time to get to Avalon  
That's why we're on this marathon  
It takes time to get to Avalon  
That's why we're on this marathon

Here we go  
It's time to get started

Don't give up, you will find it soon  
It'll come to you like a sonic boom  
Don't be late, we can crash the gate  
Or we can try again on another day

We'll leave the past behind  
If that's the price we have to pay

Don't give up, you will find it soon  
It'll come to you like a sonic boom

Don't be late we can crash the gate  
Or we can try again on another day

You know, we're goin' to find it  
And it's not that far away

It takes time to get to Avalon

It takes time to get to Avalon  
That's why we're on this marathon

Don't give up, you will find it soon  
It'll come to you like a sonic boom  
It's not too late, we can crash the gate  
Or we can try again on another day

That's why we're on this marathon  
It takes time to get to Avalon  
That's why we're on this marathon  
It takes time to get to Avalon
