When I feel like  
They're closing in on me  
I can't take any more  
I walk away and find an open door  
Find an open door

When it seems like  
I've got my  
Back against the wall  
You look my way I know I'm not alone

Call it misbehavior  
Call it what you like  
But all this misbehaving  
Is just what I need tonight

Oh no you're not alone

When you feel like  
There's no reason no rhyme at all  
Look my way  
It's not the end of the world

Call it misbehavior  
Call it what you like  
But all this misbehaving  
Is just what you need tonight  
What you need tonight

Call it misbehavior  
Call it what you like  
But is it misbehaving  
If you get what you want tonight?  
Oh, tonight  
Ooh you got it [Incomprehensible] 2.05

So if it feels like  
You're losing it  
Don't let go, don't hold it back  
You've got to let me know  
Got to let me know

And when it seems like  
They're closing in on you  
Unlock that door  
Look around can't you see that there's got to be more

Go on and let it all go  
We'll go all the way tonight

Ooh, call it misbehavior  
Call it what you like  
But all this misbehaving  
Is just what we need tonight  
What we need tonight

Call it misbehavior  
They can call it what they like  
But is it misbehaving  
If we get what we want tonight?  
What we want tonight

Call it misbehavior  
Call it what you like  
But all this misbehaving  
Is what we need tonight  
What we need tonight

Call it misbehavior  
Call it what you like
