

Saga "Password Pirate"

Visit "[Password Pirate](#)" on MotoLyrics.com

Hey Jack you're under attack
I'm in and out and you can't fight back
I'm a fat cat inside your Mac
I'll turn your mouse into a rat
Picked the lock, don't need your key
I'm on the line, takes no time
To make your information mine
Come on let's play
Stand back, computer alert
I know how your system works
Security a thing of the past
I'm not the first, won't be the last
It feels like you're not alone
'Cause now you see it now you don't
I'm never satisfied
Let me have just one more byte
I'm an outlaw on a new frontier
Don't disconnect me
You know I'm still here
On the new frontier
Oh, Oh, Oh gotta think fast
So who's in control
Password Pirate, don't crash, I'm not alone
Oh, Oh, Oh gotta think fast, I'm losing control
Here comes a stranger
On the new frontier
I gotta think fast, who's in control
Password Pirate, don't crash, I'm not alone
Oh, Oh, Oh gotta think fast, I'm losing control
I'm addicted to the danger
On the new frontier
