

## Saga

# "The 13th Generation"

Visit "[The 13th Generation](#)" on MotoLyrics.com

The year is 1945  
And number 12 has now arrived  
This is where we all came from  
Can you undo what we have done?  
It's time to face our own worst fears  
The 13th generation's here  
And what you see is what you get  
So take a seat we're not done yet  
So here we are!  
We've reached the top floor  
We've pushed all the buttons  
There aren't any more  
Do you think it's time  
That we all took a break?  
Or maybe we should cross our fingers  
And sit here and wait  
Now that you're here  
Did you think there was more?  
Hey! Get those grubby fingers  
Away from that door  
Why are you standing there  
Wearing that frown?  
We've got somewhere to go  
We can all go down!  
And now that you've had  
The ride of your life  
Have you got any questions  
I don't charge for advice  
Why are you standing there  
Wearing that frown?  
We've got somewhere to go  
We can all go down!  
After 1944  
Number 11 ends the war  
This is where we all came from  
Can you undo what we have done  
It's time to face our own worst fears  
The 13th generation's here  
And what you see is what you get  
So take a seat, we're not done yet
