

Saga "Thin Ice"

Visit "[Thin Ice](#)" on MotoLyrics.com

So here we are
Face to face
Face our sins
Let's get this party started
Let the games begin
Just one direction
No turning back
Find out what we're made of
Find out what we lack
We'll take the highway
We'll take the road
We'll find each other
As long as we take it slow
Don't look back
You know that you're not alone
We're not very far from home
But we're walking on thin ice
So good so far
Let's forget about where we've been
Let's get this party started
Count our blessings and not our sins
We'll take the highway
We'll take the road
I know we'll find each other
As long as we take it slow
Don't look back
You know that you're not alone
We're not very far from home
But we're walking on thin ice
Don't look back
You know that you're not alone
We're not very far from home
Still we're walking on thin ice

* "Push It" instrumental
