

## Saga "Time To Play"

Visit "[Time To Play](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I could send you back to school  
you've got the time to learn the rules  
to make it work you need the tools  
It's time to go back to school  
You think that your computer's real  
I just never liked the feel  
what about the sounds you steal?  
You don't know how to keep it real

[chorus]  
Now or never  
Do you think it's time to play?  
All together  
there is no other way  
there is nothing more to say  
Now or never  
I think it's time to play

What about a melody?  
I can see you don't agree  
You can find the remedy  
but you just don't think like me  
Are you gonna run away?  
Don't you play the time to play?  
Your days are numbered, you should pray  
I can't hear a thing you say

[repeat chorus]  
Now or never  
Do you think it's time to play?  
All together  
there is no other way  
There is nothing more to say  
Now or never  
there is no other way  
There is nothing more to say  
Now or never  
I think it's time to play
