

Saga "Too Deep"

Zero hour
I've gotta get a move on
Where I'm going I don't know

Ice and fire
The light is all around me
Situation touch and go

Feel that heat
I wanna seize the moment
Now before the moment's gone

To the wire
We'll talk about it later
Till then the search goes on

Too deep for the tears
You left me waiting here
Just frozen in fear
Cold uncertain times

Too deep for the tears
The passage of those years
Has dried up the sea
Hope that's held me near

Cloud of stars
The freshness of a vision
Fast forward, fade to black

Aftermath
I'm running by the hour
And there's no turning back

Heart and soul
The price is getting' higher
And the coast is clear but steep

Sunken sun
Creates a world of shadows
But I'm in too deep

Too deep for the tears
You left me waiting here
Just frozen in fear
Cold uncertain times

Too deep for the tears
Passage of those years
Has dried up the sea

Seeds of change
I know the day is comin'
But the hour is getting late

Keep the faith
Although it's getting harder
I know I just can't wait

Too deep for the tears
You left me waiting here
Just frozen in fear
Cold uncertain times

Too deep for the tears
The passage of those years
Has dried up the sea
