on plane rides  
on train rides  
on bus rides

you need to shut your kids the fuck up  
(word up)

I'm tryin to get some writing done on this motherfucker

ha ha

check it out...

perhaps when i have one of my own ill sing a new tune  
but this song is called disasters its about your two year  
olds

i sing for a living in funeral homes. i dont take requests  
diss my sense of fashion all you want. i hate the way  
you dress!

how do you expect someone to take you seriously?  
when its obvious the god you trust is hateful and  
inferior to me

im kidding. really folks. oop.. thats just to be modest  
thinking when you hear these jokes you laugh just to  
feel smarter

woman are cannon fodder for the father of their bratty  
little disasters

i brought it backa little bit,,,, you see that???

just you a recap before i call it and recut it, relax and b-  
boy? on every subject

beat back on natural urges to have surgeons attack  
rappers?

whose scalpels swerve until the cellulite splattered on  
curtains

im certain you've heard of me by now that why you  
listening

its a ? opportune time to diss some things (like  
children)

if you have one cool...

but dont use kiddies as an excuse to make horrible  
music, (please)

ive got a mouth to feed to and its lives on my face.

baby mamma drama blah blah blah  
ive got a problem but im not sitting on a barbarian chair  
with a heeadful of Rastafarian hair hair  
i fear no man with a handful of scissors  
cuz i just cut em short in the shape of an animal less  
vicious  
dig it...  
im more dapper than Dan and sadly  
y'all so stupid like a van full of pakistan's at a clan rally  
wheres my daddy forget what the court of law says i  
cut my loses im asking you who the fuck yours is  
if i wanted to pick you up with a line... it'd have a  
fishhook on the end of it.  
let me stick it in your eye  
fucking cry baby  
wipe your eye baby  
i may have busted off a couple times inside but that  
ain't my... baby  
kicking on original flavours dumb ish  
like jay z trying to impress ? with tongue twist

i diggity done this  
i diggity done that  
i kept the style in my arsenal thinking it would come  
back  
now run that shit like wild potato chips  
throw your hands up if your in a fucked up relationship

help me ... fuck these two kids up in the seat behind me

i know that  
(disasters)  
i know that
