Had to get out

im sorry if i ever hurt you

didnt mean to make you cry

i didnt mean to make you sad

didnt want to make you die

but no matter what you think or say

i just couldnt live on

i had to get away

i had to get out of this sh!t that you call life

i had to leave i had to

i loved you then

and i still love you now

and maybe someday we can work it out somehow

but for now i need a bit of space

so ive gone to spend time in another place

i'll always love

your face is in my mind

these words cant express what you still mean to me
inside
