Heads down, check it out,  
It's all better I found a door,  
It opens for a better day,  
Heads down, check it out,  
It's all better I see a light,  
I fight to make a way,  
Live life by yourself,  
Don't seek it, it'll come to you,  
You hope for a better day.

And for that something, and its better home,  
Its better home.  
And for that something, and its better home,  
Its better home.

Let it roll! Let it roll!  
Let her win your heart, its all for a better way.  
Let it roll! Let it roll!  
Let her win your heart, its all for a better day.

That sure?  
Don't you mean its that one goal,  
Don't you mean its that one goal,  
Don't you mean its that one goal?

Darling pick up the piece, and move on from this...  
Fight, fight for your life,  
Don't take it over board,  
You live, die by the sword,  
Fight, fight for your life,  
Don't take it under oath,  
You all need hope and pray,  
So here is to the future hope,  
We all get there by the way,  
We hope for a better day,  
So here is to your common ways,  
Hope you find it all alone,  
You hope for a better day.  
And for that something, and its better home,  
Its better home.  
And for that something, and its better home,  
Its better home.

Let it roll! Let it roll!  
Let her win your heart, its all for a better way.  
Let it roll! Let it roll!  
Let her win your heart, its all for a better day.

That sure?  
Don't you mean its that one goal,  
Don't you mean its that one goal,  
Don't you mean its that one goal?

Darling pick up the piece, and move on from this...

Let it roll! Let it roll!  
Let her win your heart, its all for a better way.  
Let it roll! Let it roll!  
Let her win your heart, its all for a better day.

That sure?  
Don't you mean its that one goal,  
Don't you mean its that one goal,  
Don't you mean its that one goal?

Darling pick up the piece, and move on from this...

It's like woah.  
It's like woah.  
It's like woah.  
It's like woah.
