Cannot fake, cannot fake this condition.
Cannot fake, cannot fake this condition.
Cannot fake, cannot fake this condition.
Cannot fake, cannot fake this condition.

She's back out of nowhere like woah, woah.
I'm asking these questions, can we go, go, go.
Let's go to a room to a place where, I can hear myself
speak.
Let's go away you're already thinking I'm pushing my
luck.
Like one to another our eyes have just touched.
And the birds and the bees and birds bring you down
to your knees.
And the birds and the bees want it all,

Listen with your heart coz your head don't want it,
Give me a chance and finish what you started,
Listen with your heart coz your head don't want it,
Give me a chance or I'll be gone, gone, going, gone,
This time I know I'll get my own way,
This time I know I'll get my own way.

Stop the clocks and wait for me.
Stop the clocks and wait for me.
Stop the clocks and wait for me.
Stop the clocks and wait for me.

I know what you're saying, I'm over the top.
I'm afraid you can't halt this or make it all stop.
No need to confuse or choose, this time I can't lose.
It's all okay rest assure what I'm saying, these words
are not lies.
Just act on your impulse and cut all our ties.
And the birds and the bees and birds bring you down
to your knees.
And the birds and the bees want it all,

Listen with your heart coz your head don't want it,
Give me a chance and finish what you started,
Listen with your heart coz your head don't want it,
Give me a chance or I'll be gone, gone, going, gone,

This time I know I'll get my own way,
This time I know I'll get my own way.

Stop the clocks and wait for me.
Stop the clocks and wait for me.
Stop the clocks and wait for me.
Stop the clocks and wait for me.

I do, I do, I do, I notice.
I do, I do, I do, I know this.

I do, I do, I do, I notice.
I do, I do, I do, I know this.

(Gone, going, gone)

This time I know I'll get my own way,
This time I know I'll get my own way.

Stop the clocks and wait for me.
Stop the clocks and wait for me.
Stop the clocks and wait for me.
Stop the clocks and wait for me.
Stop the clocks and wait for me.
Stop the clocks and wait for me.
Stop the clocks and wait for me.
Stop the clocks and wait for me.
Stop the clocks and wait for me.
Stop the clocks and wait for me.
Stop the clocks and wait for me.
Stop the clocks and wait for me.
