Every time I look at you
You make me feel things I wish would come true
It's hard to fall in love
And all the times I've changed my mind
I think I've changed it for the last time
I think I found the one for me
And all of the men I used to choose
Can't make me love them like I do with you
I still don't know how you make me go crazy, oh

I'll do anything for you
No matter what I'm here for you
I'll be down for you no matter what you're going
through

You bring me up, you put me down
Sometimes I like when you're around
And when you smile it makes me cry
Boy, there's no tellin' what's goin' on inside (no!)
Because when I'm happy I can't sleep
And when I'm in love I get so weak
I can't explain what you do to me (oh! no)
But no matter where life takes us
It's always you that I will trust (always trust)
With my mind (with my mind)
And my soul (and my soul)
My heart and feelings (oh no, no)
With you is where I wanna stay
I can't believe you made me feel this way

Even though it took sometime to find
You've always stayed on my mind
I just wanted him to be the right kind
And times that I doubted you
And lost all of my faith in you
You'd do anything to make me believe what's true
And all of them haters can't make it real
What you and I will always feel
For real
It's only me and you now

I want you to do anything for me
Give me the opportunity and I guarantee
You'll see the real thing is in me

You bring me up, you put me down
Sometimes I like when you're around
And when you smile it makes me cry
Boy, there's no tellin' what's goin' on inside (noâ€¦)
Because when I'm happy I can't sleep
And when I'm in love I get so weak
I can't explain what you do to me (ohâ€¦ no)
But no matter where life takes us
It's always you that I will trust (always trust)
With my mind (with my mind)
And my soul (and my soul)
My heart and feelings (oh no, no)
With you is where I wanna stay
I can't believe you made me feel this way

I don't wanna be so selfish
But I just want you to myself
None of them other girls can love you like I do
And all of the feuds we go through
We can always be true
And now I can finally say how much I love you
â€¦I love youâ€¦

You bring me up, you put me down
Sometimes I like when you're around
And when you smile it makes me cry
Boy, there's no tellin' what's goin' on inside (noâ€¦)
Because when I'm happy I can't sleep
And when I'm in love I get so weak
I can't explain what you do to me (ohâ€¦ no)
But no matter where life takes us
It's always you that I will trust (always trust)
With my mind (with my mind)
And my soul (and my soul)
My heart and feelings (oh no, no)
With you is where I wanna stay
I can't believe you made me feel this way
(Way, way, wayâ€¦)
I can't believe you made me feel this wayâ€¦
