Let a nigga know  
You wanna go to war, bop  
You wanna hear the 44 pop  
You wanna see the gun that will make  
More than just your jaw drop

You wanna mess with the best  
But do you want to save  
Your mama some stress?  
Nigga, if you really want to test

I'll come and chop you in half  
My click is cucku for cocoa  
They'll pop you and laugh  
Wanna do gun play?  
Monday through Sunday  
All 52 weeks of the year

Am I speaking clear?  
You feel my flow  
Even though I'm so political  
Ain't another MC as gangsta as me

Shit, I should be signed to Death Row  
Uh, oh, there go Saiyo  
AK nine six at yo 5-0  
Mind blow to your spinal  
You're only a thug on vinyl

You soft, I know  
And yo so is your rhyme flow  
I'm the only rapper to  
Ever shoot up the club  
Me and my man Sean Paul

I pop up in a hot car  
You hop up in the cop car  
Then start telling the cops  
Who's selling the rocks  
And who the niggas on the block are

I put's it down

I know they like the way my shit sounds  
Banging from the hood out to the hick towns  
Everything I spit is hit bound, they on my shit now

Gotta get that money like  
Krazie, Lazie and Bizzy bone  
Trying to take my from me  
What kind of crazy shit is you on?

Let a kid act funny  
I'll lace him like when my kicks is on  
We in the zone  
We don't go to war with no sticks and stones

Wanna play Gin Rummy  
Then shuffle the cards and deal 'em out  
But if you get picked up then  
We trust that you not going to seal us out  
I'm in the cut with a chick  
With a bigga butt than Trina  
And a better face than Jigga's slut

Nigga, I'm Saigon, you understand that?  
I'm draped in firearms, you wanna wear that?

If you was, now you not  
You done fucked with the wrong one, now you shot  
I'll even give it to a cop, mother fucker  
You the chump, I'm not, mother fucker

I put's it down  
I know they like the way my shit sounds  
Banging from the hood out to the hick towns  
Everything I spit is hit bound, they on my shit now
