it might safe to say  
that women are the new dog to ..

Hook:

she's mine even though she's yours  
you aint' the only one breaking the all  
it don't seem right but that's how we made them  
women are the new players  
dont' hate em  
and she be lying when she say where she goin  
tell me be quiet when he calling the phone  
i had to question why girl you're doing so wrong  
she said i got it from ya'll  
women are the new dogs

i'm nice like loving on the freestyle  
he know i found my number on his wife's speed dial.  
ooh she gonn' get a beat down  
he come here yeah will be warmer like the ....  
wuddup nigga your chick chose M.Y  
i step up in the night spot i aint' even inquire  
of who she was, who she with, who she love, who she  
hit  
truefully ngga i thought your chick was on some bujii  
shit  
till i seen a sipping henessy dark women that drink that  
the women be hard  
when i say hard i aint' talking hard like Rihanna  
talking first night bitch will let you hit the vagina  
i .. like em like expected neck  
see as much but i still give em respect  
she's a she aint' nothing but a new dog  
so i put on more than just two part

thinking she good thinking she not hurt worthy  
and no not for a sec did i expect she was still give me  
sex to her ex.  
till i check the radio station doing a segment called  
true confession  
a caller called it said hey proved without a question  
that he was hitting my chick doing a..  
said i hope these niggas used protection  
they all laugh about on the west side ..  
elbows..poiting them from they wips like AHA  
feeling like a jack ass thinking she got the nerve  
but something deep down inside ,oh i'm getting what i  
deserve  
i had tammy on tuesday, teresa on thur  
while i was getting mine i guess she was getting hers  
and then right after the dude called  
they played the song called women are the new dogs

[Hook:]

they say women are the new dogs  
'cause a lot of men turning into..  
if thats your thing my any means do yall  
me i rather die from a terminal case of blue ball  
back to women being the new dog  
i think 90 percent of this is the dudes fault  
but when you grew up listening to that two shaw  
you end up thinking the same way snoop dog  
you think bitches aint shit but hoes and tricks  
cause we aint treat em like queens like they suppose  
to get  
and instead of loving them better like uncle L with the  
sad  
we said the hell wit em and that fucked up they heads
