Kerry run to the other side, have some fun on the other
side
You were always tripping on your feet
You went the wrong way down a one-way street

Since the day that you found your wings
And flew away to much better things
Now you never get the chance to see
What's been going on inside of me
Don't forget all the love I gave you on your way...

(Chorus:)
And don't send flowers, just give me some hours
Just a moment of your time would really make it shine
So think it over
But don't send flowers from ivory towers
I just want to see your face for ever and always
Please think it over

Wend your way through uncertainty
Then one day please come back to me
I'll be waiting in the wings for you
If you find you don't know what to do
Darlin' come back to me forever, but 'til then...
(Repeat chorus twice)

And don't send flowers
Don't send flowers
Don't send flowers.
