I
Wanna
Be
A Star!
Each night I sit and dream
Of those stars I see in magazines
I love to lose myself
In the stories of the lives they lead, yeah
Why can't I be like them?
Living life with fortune and fame
I know I've got what it takes
I've just got to start on my way.
I wanna be a star, star, star
Gonna have my name up in lights
I wanna be a star, star, star
I'm gonna blaze across the sky like a meteorite.
My fans will truly adore me
Every time I dance or sing my songs
I'll ride in a big fancy car
And take all my friends along, yeah
All 'round the world I'll go
Giving shows from east to west
(with my Sailor Scouts!)
Every night I step on the stage
The crowd will scream I'm the best
I wanna be a star, star, star
Gonna be the best in the world
I wanna be a star, star, star
I'm gonna be the absolutely most famous teenage girl
On behalf of the moon, I shall sing to
Right wrongs and triumph over evil
With my friends Sailor Venus, Jupiter, Mars, and
Mercury
We'll make the world
A better place for all people!
I wanna be a star, star, star
Gonna have my name up in lights
I wanna be a star, star, star
I'm gonna blaze across the sky like a meteorite,
Yeah
I wanna be a star

I wanna be a star
I wanna be a star
