Got up this morning
On the right side of my bed
With all these crazy thoughts
Screaming through my head
I can't wait to see
What this world holds for me.
Oh, it's a new day
Oh, it's a new day
And when I see you
Any time or any place
You are the reason
For the smile on my face
'Cause you make me feel
All my dreams can be real
Oh, it's a new day
Oh, it's a new day
It feels so good to be alive
Even if a little rain should fall
'Cause every moment
Brings a new surprise to us all
Oh, it's a new day
Oh, it's a new day
Oh, it's a new day
Oh, it's a new day
Here in you I found a friend
You'll be with me till the end
Oh, it's a new day
