The sands of time slip through our fingers  
Here in the cool of the Caribbean night  
Please don't cry, when tomorrow I fly away  
And have to find a way of saying our last goodbye

(Chorus):

Jamica girl, right from the start  
You lost your head, I lost my heart  
And in the heat of the moment  
We felt the power of a thousand oceans  
Jamica girl, I'm falling in love with you

Here we lie in moonlit shadows  
Lost in a dream that will soon be just a song  
Come one day our song will echo all over these islands  
But until then my love you know we must both be strong  
(Repeat chorus)
