"Nickelodeon nights"

Some people talk about losing
And how things that they love never last
Bittersweet memories haunting
As the days of their youth seem to pass

(Chorus):

So play, nickelodeon, play
Bring back the bright golden days
Play, nickeoldeon
With an accordion
Play me the songs that I love
Songs that I love
(Play me a song)

The towns and the girls and the harbours
The jokes and the stories we told
A beautiful song, like an old friend
Can live in your heart and your soul
(Repeat chorus)

So farewell to you, my old friend
The dreams that we dream never end
Play, nickelodeon
Now I'm alone again
Counting the years that have drawn us apart
But I know in our hearts we will share...

Nickelodeon nights
Nickelodeon nights
Nickelodeon nights
