-----

Give sadness now a sailor smile  
Bringing a miracle, a sailor wing  
Everybody carries a shining star inside  
I won't give up! To tomorrow, a sailor yell  
For sure! I will catch it! The sailor star  
Let this vow sound through the whole galaxy  
After the time when you disappeared from me  
I began my journey searching for you  
On the yellowed map, the stenciled picture of an angel  
Waiting at the destination it points to is a dark coliseum

In my trembling heart, the secret kiss of that day  
However hard destiny may be  
I will keep following it

I won't look back, with my sailor eyes  
Reaching out to you, with my sailor wing  
This song is the guidepost of the stars  
I won't give up! To tomorrow, a sailor yell  
For sure! I will find it! The sailor star  
With the wings of an angel, I take off

Alone I run along the road of the unknown  
At last I have arrived, here at this fort  
At the bottom of the flask, which you left behind  
A single piece of the star of trial, now chant the magic  
spell

This is our miraculous destiny  
The past and the future, crossing them all, to catch up  
with you

Give sadness now my sailor eyes  
Bringing a miracle, a sailor wing  
Everybody carries a star of fate inside  
I won't give up! To tomorrow, a sailor yell  
For sure! I will catch it! The sailor star  
Let this vow sound through the whole galaxy

I won't look back, with my sailor eyes  
Reaching out to you, with my sailor wing  
This song is the guidepost of the stars  
I won't give up! To tomorrow, a sailor yell  
For sure! I will find it! The sailor star

With the wings of an angel, I take off
