Can't you see what I feel for you  
Will you hold me now like you used to do  
Will you stay with me now?  
I'm not just a lonely friend  
Once I fell for you, now I'm falling again  
Won't you stay with me now?  
You're so warm and tender  
Just as I remember - before you left me

(Chorus):

Can't you see that I need you  
Need you right or wrong  
And not just for a moment  
But all night long  
Won't you please think it over  
Please tell me you will  
Stay with me now - stay with me now

I don't mean playing games with you  
I'll do anything that you want me to  
If you stay with me now (Stay with me now)  
For the night's like a pantomine  
Full of memories of a better time  
Won't you stay with me now (Stay with me now)  
As my love gets stronger  
Every night gets longer - to be without you  
(Repeat chorus)

Won't you please think it over  
Please tell me you will  
Stay with me now - stay with me now  
Stay with me now
