Got a feeling you're the one now
My heart's beating for you stronger
Every day I'm dreaming of you
What's a girl in love to do huh?

Got emotions, got it real and growing
Can't seem to keep me from it showing
Just wanna shout out to the sky
Please be mine

I want someone to love, to give my everything
I just want to be with you, be with you baby
'Cause if I had your love, I have everything
I just want to be with you, be with you baby, baby

Listen now to what I'm saying
'Cause this ain't a game I'm playing
You may think other girls are bomb
But boy, I'm gonna make you mad

Start thinking in a new direction
You and I would be a total perfection
The cool side now to affection
Here you go

I want someone to love, to give my everything
I just want to be with you, be with you baby
'Cause if I had your love, I have everything
I just want to be with you, be with you baby, baby

Could it be, now, any clearer?
All I want is for you to be nearer
Closer to the heart that beats for you
Don't you know that I want, want, want you?

I need you more than the air I'm breathing
So bad you better be believing
You're the only one in this world
For this girl

I want someone to love, to give my everything

I just want to be with you, be with you baby
'Cause if I had your love, I have everything
I just want to be with you, be with you baby, baby

I want someone to love, someone to be my only love
I want someone to love, someone to be my only love
Someone to be my only love

I want someone to love, someone to be my only love
I want someone to love, someone to be my only love
I want someone to love, someone to be my only love
Someone to be my only love
