Got up this morning  
On the right side of my bed  
With all these crazy thoughts  
Screaming through my head  
I can't wait to see  
What this world holds for me.  
Oh, it's a new day  
Oh, it's a new day  
And when I see you  
Any time or any place  
You are the reason  
For the smile on my face  
'Cause you make me feel  
All my dreams can be real  
Oh, it's a new day  
Oh, it's a new day  
It feels so good to be alive  
Even if a little rain should fall  
'Cause every moment  
Brings a new surprise to us all  
Oh, it's a new day  
Oh, it's a new day  
Oh, it's a new day  
Oh, it's a new day  
Here in you I found a friend  
You'll be with me till the end  
Oh, it's a new day
