

The Sainte Catherines

"Across The Sea"

Visit "[Across The Sea](#)" on MotoLyrics.com

Across the sea
There's a little house
Where all our dreams
Do come true
Our giant ship
Will take us there
It will us there
Across the sky
There's an aeroplane
That takes us all
To somewhere else
Our giant ship
Can take us there
Our giant ship
Will take us there
It can take us there
I should have been there yesterday
I should have been there yesterday
Across the lawn
In a tiny box
Where things are kept
For rainy days
I should have been there yesterday
I should have been there yesterday
I should have been there yesterday
I should have been there yesterday
I should have been there
I should have been there

I should have been there

I should have been there
