Fuck all the cars and highways fuck animal cruelty
animal's are there for love not to serve your stupidity
it's easy to say "You don't know if they suffer" even if
they don't feel a tear in my eye How can we hope of
peace in this world we love in when everyday you're
eating flesh, blood and animal lives but you won't
change your ways, years of conditioning I don't even
blame you I just hope you'll realize - My 2 best friends
are gone forever I've cried so much- Yesterday the
pain won't go away... came back late tonight like ever
other night I don't hear your voice I won't hear it
anymore the same smell of piss undisciplined like me
you won't be replaced you'll love with me forever I
remember everything all the fun that we had some
people think it's funny but my best friend has left me
friends are there forever but when they pass away no
me won't be together I can't believe you left me...
