When it's dark and late at night
I think about the times we've had
Make some room for us to fall
Just in case it all goes bad

Let the light come shining through
Let the light come shining through

If the sun refuses to shine
And our world is hard to see
Take my hand, I'll lead you home
There's a place for you and me

When I think about petals and rain
From the sky, landing on the sidewalk
Coming down...down, down, down

When I think about petals and rain
From the skies, landing on the sidewalk
Make it wash away...gone, gone, gone

When it's dark and late at night
I think about the times we've had
Make some room for us to fall
Just in case it all goes bad

If the sun refused to shine
And our world is hard to see
Take my hand, I'll lead you home
There's a place for you and me

Let the light come shining in
Let the light come shining in
Let the light come shining in
Let the light come shining in

When I think about petals and rain
From the skies landing on the sidewalk
Make it wash away...gone, gone, gone

When I think about petals and rain

From the skies, landing on the sidewalk...
