

The Sainte Catherines

"Nature"

Visit "[Nature](#)" on MotoLyrics.com

Nature it's all around me
Nature is so astounding
It puts me on a beach
It swims beneath the sea
It's never out of reach
It's even you and me

Nature it's all around me
Nature I hope it finds me
It takes me from a book
From pictures I can't feel
But outside when I look
Natures something real

Nature it's all around me
Nature I hope it finds me
It's hiding up a tree
It sees me looking down
Look at you and me
And nature can be found

Nature it's all around me
Nature I think it found me
I wonder where it starts
I wonder where it goes
Maybe in our hearts
Only nature knows
