The crowd did move  
Was it live  
The course it took  
Was it right  
The crown I wore  
Was it mine  
The lips that lie  
Is it true  
The line that binds  
Is it real  
The lace that tears  
Is it skin  
The face that smiles  
Is it yours  
The fall that kills  
Is it dead

Chorus:  
To control the mannequin  
Your wrists will shake  
Without circulation  
Your face will twitch(2x)

Do you feel(2x)  
Better than me  
Do you taste(2x)  
Better than me

The prey that hunts  
Was it found  
The people die  
Is it right  
The place is lost  
Will it turn  
The guilt that hurts  
Will it change  
The guess that shames  
Will it smile  
The game that plays

Does it hurt  
The fail that's right

Does it taste  
The fuck that hates  
Do you care

Chorus:  
To control the mannequin  
Your wrists will shake  
Without circulation  
Your face will twitch(2x)

Do you feel(2x)  
Better than me  
Do you taste(2x)  
Better than me

Did you get  
What you wanted(4x)

To taste acid  
To taste guilt  
To taste shame  
To taste hate  
To taste death  
To taste black  
To taste acid  
To taste red  
To taste hell  
To taste me  
For you to swell  
To taste god(Repeat 3x)

To taste acid

Guilt  
Shame  
Hate  
Death  
Black  
Acid  
Red  
Hell  
Me  
Swell  
God  
Acid
