"When I Failed"

Decide everything for me
Subject yourself to it
Make believe it's only your fault
Stifle my own ambition

It's been so long since I failed
Yeah, yeah, yeah

Nothing alienates this
Anything reminds me
Relieving it only helps
Suffer to make your own gains

It's been so long since I failed
Yeah
It's been so long since I failed
Yeah
It's been so long since I failed
Yeah, yeah, yeah

And now my senses fail me
And still my training fails me
And now everything fails me
And still everyone fails me
And still the only thing I have fails me
