When / I had the time / to lie / somewhere divine. /
think / of some time / with you / in the sunshine. /

Oh boy, the feeling when you held my hand (held my
hand.) /
Don't talk, / baby / just pass the time (pass the time.) /
I didn't listen when they said you'd moved / on, I knew
they were wrong. /

Let / our love ascend, / when you / still had some
friends; /
climb / the mountain / to see / how we were then. /

Oh boy, the feeling when you held my hand (held my
hand.) /
Don't talk, / baby / just pass the time (pass the time.) /
I didn't listen when they said you'd moved / on, I knew
they were wrong. /

Cry / a million times; / I thought / he'd lost his mind. /
His / only big crime / is he's / just as much mine. /

Oh boy, the feeling when you held my hand (held my
hand.) /
Don't talk, / baby / just pass the time (pass the time.) /
I didn't listen when they said he'd moved / on, I knew
they were wrong. /

When / I had the time / to lie / somewhere divine. /
think / of some time / with you / in the sunshine (in the
sunshine, /
in the sunshine.)
