Who's that knocking on my door?
And who's that lying on the floor?
Driving through the pouring rain again
Romeo let's go

Shoot 'em out
Shoot out the lights
C'mon and shoot 'em out
Here comes the night
Let's make it all right

Better leave the motor on
Send a signal nothing's wrong
Jesus Christ, the radio has gone
And the shout black as night

Shoot 'em out
Shoot out the lights
C'mon and shoot 'em out
Here comes the night
Let's make it all right

Shoot 'em out
Shoot out the lights
C'mon and shoot 'em out
Here comes the night
Let's make it all right
