

## Saint Vitus "Children of Doom"

Children of doom  
And we are like  
We are your father  
no other

Let me see your hands  
Because you are here

Let me hear you scream  
You know what it means  
We are the children of doom  
Give us some room

We stand before you  
Like an ancient idol  
But we are nothing  
Nothing more than you

You are the ones  
We can feel it from you  
See it in your eyes  
Who keep us alive  
We are the secret  
Soon to be known  
The more we're together  
The quicker we grow  
Of the endless maze  
We are the light  
We are the end  
In the daily haze  
Children of doom
