I am the screaming star  
You don't remember  
I am the jone who started  
The fucking game  
I am the screaming banshee  
That you don't recall  
I am the one who  
You think has lost it's name

Listen and you will hear

That I have been there

I'm the only one  
Keep your head alive  
Take a good look around  
I am the one who's left  
I am there, man

When it's said and done  
You try to ignore me  
But that won't work, dear  
I am the tortured sound  
Within your ear

Just like the needle, hot

Piercing inside

I will change your life

Control your fears
