[CZOLGOSZ]

It takes a lot of men to make a gun,
Hundreds,
Many men to make a gun:

Men in the mines
To dig the iron,
Men in the mills
To forge the steel,
Men at machines
To turn the barrel,
Mold the trigger,

Ease your little finger back-
You can change the world.

Whatever else is true,
You trust your little finger.
Just a single little finger
Can change the world.

No, it's really great-
Wait-

Shit, where is it?
Anyway
It's just a .38-
But-
It's a gun.
You can make a statement-
Wrong-
With a gun-
Even if you fail.

It telss 'em who you are
Where you stand.
This one was on sale.
It- no not the shoe-
