Come on, old friend
There's nothing to be afraid of
Jump out of your shell
It's nothing but a handshake

Try to be real
As the others try to be cool
Jump out from your thing
Cause I wanna show you something new

[Chorus:]

What you see when you're gone and die
Will it be me or will it be you?
Will it be him or will it be her?
It's not what you see
But it's something more than that

[Chorus]

Oh come on little girl take my hand
I'm gonna lead to the world
Inside your head where the trip
Is a never ending game

You want it bad, don't you stop now
You want it bad, you have to try it
You want it bad, don't you stop, don't you stop

[Chorus] (x4)
