Back to Discos

Love can be a sound
It can really put you down
So you've got to know yourself
So you can't hurt no one else

Love can be a sound
Shakin' from the underground
So you've got to know yourself
So you can't hurt no one else

Well I've collided with a few before
Before I knew what I was up for
I never said my life was mess
But I deserve a second chance

Pills, Sex and a Hard Beat
So It's back to Discos, Back to Discos

Love can be a sound
It can really put you down
So you've got to know yourself
So you can't hurt no one else

Well I've collided with a few before
Before I knew what I was up for
I never said my life was mess
But I deserve a second chance

Pills, Sex and a Hard Beat
So It's back to Discos, Back to Discos
