Long distance information, ring me 608

Laughing at the other end

get me my prescription, come and walk my dog

please get me anything

You can't seal fate with a kick

You should know it doesn't work that way

As for your lofty aspirations

You couldn't give them all away (throw away)

Those precious things that juist don't last (throw away)

Everybody's been cut like broken glass

Long distance information sounds like broken glass

Just how long is all of this really gonna last

Get someone I used to know

In another place of time

Please please me

You've been places I'll never go

Begged the questions I'll never know

You've had so many arms around you

This time you've hit an all-time low

So many things just don't last

So many things like broken glass
