If the day wants to begin, you can let the day in

If the darkness has no end, light up the darkness

It ain't on what you can depend, it's who you can
depend on

If the rain wants to come in, you can let the rain in

If the darkness is your friend, you can hold the
darkness

And if it ain't what you got, you know you gotta have it

The grass gets greener all the time for creatures of
habit

Look out, here comes one more morning

Habits form without a warning

Love it can be habit-forming

Make your enemies your friends, and leap standing
naked

It ain't how much you can take, it's how you take it

Look out, here comes one more morning

Habits form without a warning

Love it can be habit-forming for creatures of habit

Look out, a habit's forming

It's just one more morning

For creatures of habit
