Wanna see you in my rearview mirror

Out on the freeway freeway, nobody said it would be  
easy

Freeway freeway, I can't change the time and

I can't change your mind, but I gotta find a freeway

You're on my way, on my way

Leeway I need a little leeway

Make the best of nothing left for me

I can't find the time, gotta see what I can find

Out on the freeway, you're on my way

On my way, I'm not talking, someday someday

I ain't waiting around for someday, someday someday

I'm gonna get away from all this someday

I can't change the time and, I can't change your mind

You're on my way, on my way
