Streets are filled with broken glass
You get buried by the past, give me just a little taste
Lay this mess to waste ... take me home
My mind is racing take me home
My body's achin' so alone
I'll make you want to stay with me
Befriended by the enemy ... one more time
And every little thing about this tells me
Nothing out there is ever gonna help me
All these words that I heard spoken
Just promises broken now
Looking outside from my window sill
Throw another coin in the wishing well
You'll never find what you're looking for
Fifteen miles, your dim light shines from so far away
Your sad smile, is all I see when I say
That every little thing about this tells me
Nothing out there is ever gonna help me
All these words that I heard spoken
Just promises broken now
From the hotel satellite

Don't look like you're living right
Here's a deal you can't refuse
You ain't got as much to lose
Can you tell your troubles to
Someone who won't laugh at you, it's all right
And as I watch you walk away
Hope a part of you would stay, it's all right
And every little thing about this tells me
Nothing out there is ever gonna help me
All these words that I heard spoken
Just promises broken now
