"Sick Of That Song"

Visit "[Sick Of That Song](#)" on MotoLyrics.com

I'm sick of that song about how you lost your lover

Sick of that song about how you hate your mother

Sick of that song laced with useless solutions

I'm sick of that song about how you look at life

Sick of that song about how you beat your wife

Sick of that song about sha na blah blah

I'm sick of that song about sex and drugs and rock

Sick of that song about how you love your cock

Sick of that song about your bitchin' bad luck

Sick of that song about all those women you f*ck

I'm sick of that song
