"Take It To The Root"

Visit "[Take It To The Root](#)" on MotoLyrics.com

Hey what're you doing comin' around my place

I've been cryin', tears are down my face

Do this, do that, it's always push, push, push

But I sure grow tired of beating 'round the bush

Take it to the root, hey what're you saying, calling out
my name

I ain't got no shame, better find someone else to blame

Talking 'round in circles, take it to the point

Take it to the root, I can't take it, always in my face

Hey, don't I know you? I've seen you someplace

Back before you know it, back for more abuse

Back to where I started from, home and on the loose

Take it to the root, Take it to the root one time

Take it to the root two times

Take it to the root three times

Take it to the root four times
