Well, a fascinating sensation, no I can't even feel it

I just had to let you know I can't conceal it

I was recently considering taking the pain with the
pleasure

Just to find my way to the bottom of this, I'll have to dig
forever

And it's no small measure, lift up your veil of tears

Don't be disappointed child, if your prayers go
unanswered

We are not responsible for these sad circumstances

Secret agents and freedom fighters on those
impossible missions

Better put your toys and games away, maybe take the
kids out fishing

For a family treasure, in your early years, behind your
veil of tears

So frustrated, get up anyway, so complicated, changes
every day

So the darkness fades

And the light will come shining through

I heard the eyes that look to a better world

always hide beneath the veil of tears

And you hide no more, lift up your veil of tears hide no
more, behind your veil of tears

Now the executioner must be executed

No I think we'll set him free instead, watch him run

And you hide no more, lift up your veil of tears, you
hide no more
