Such a beautiful morning

Such a beautiful day

Grace came as a warning

So I won lose my way

I'm in front of the ocean

You came out of the blue

There's that streeping emotion

I'm in love with you

I'm in love with you

I'm in love with you

I've been dreaming of you

You're my dream come true

I'm in love with you

Such a beautiful evening

Such a beautiful night

Do you think there's a meaning

In ever so bright

What on earth is the moon here

I can almost see through

Through your graceful desire

I'm in love with you

I'm in love with you  
I'm in love with you  
I've been dreaming of you  
You're my dream come true  
I'm in love with you  
Such a beautiful twightlight  
Now I know what I have  
You came out of the light  
Like a force from above  
Grace has come as a warning  
So I know it's all true  
Welcome, baby, good morning  
I'm in love with you  
I'm in love with you  
I'm in love with you  
I've been dreaming of you  
You're my dream come true  
I'm in love with you  
I'm in love with you  
I'm in love with you  
I've been dreaming of you  
You're my dream come true  
I'm in love with you...
